

The Project T.I.M.E. Mentor Program strives to foster positive relationships between public school students and T.I.M.E. Mentors. The mentors seek to support families and help improve the students chance of succeeding academically and socially.

The mentor program matches trained Community volunteers with elementary and middle school students in cooperation with the schools' teachers and intervention specialists. Mentors meet with students once or twice a week during the lunch hour.

Our Goal:

- Increase positive attitudes toward school
- Achieve higher grades
- Improve relationships
- Express feelings better
- Develop higher levels of self confidence

History:

The Project T.I.M.E. Program began in 1990 as the "Save Our Society One Family at a Time" Thesis of Rev. Terrell Person. He was interested in how mentoring relationships could prevent families from becoming "at-risk".

-
- Yes, you can count on me to invest my time as a Mentor_____.
 - Yes, you can count on my Financial Support_____.
 - Yes, you can count on my In-Kind support_____.
